Route 10025

The calendar's background color will correspond to the color of the route being viewed. Admins can click here to change the view of the route.

Days with maximum capacity will be marked yellow and full. Days that still open will be marked green.

Capacity

Full

<<Mar 2008>>

S	M	T	W	T	F	S
24	25	26	27	28	29	1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29

Fleet

Truck 1< 50

Truck 2< 75

Truck 3< 25

Truck 4< 100

Truck 5< 50

Fleet available during the given period of time will be listed with their maximum capacity to the right. When a truck is assigned to a time window, it will be assigned a number of orders to be delivered and a driver. Upon update, the capacity listed will be reduced accordingly.

Sun 3/2

Mon 3/3

Tue 3/4

Wed 3/5

Thu 3/6

Fri 3/7

Sat 3/8

UI Key

Default button for updating a time window. Upon click, admins can choose to a) cancel a time window , or b) assign a truck(s) to that window in the order manifest mode.

Set the number of maximum stops.

Displayed after canceling a time window.

Displays the number of open slots.

Displayed to represent an MFS scheduled order or sum of orders and its respective quantity.

Displays the number of orders within the same building.

Displayed when a route's assignments conflict with the model's rules a) driver is not assigned to a delivery window on a given day, or b) the number of orders is greater than the fleets assigned capacity.
